Pre-release blinding checklist (all must be confirmed before release)

- ☐ No biomarker values present (sFlt-1/PIGF, sEng)
- ☐ No POC result, category or derived risk classification present
- ☐ No free-text that could unblind the reviewer
- ☐ Direct identifiers removed — study ID only
- ☐ Correct study-specific adjudication form attached (EOPE / LOPE)
- ☐ Dataset complete for the window, or data query raised

Result: ☐ Blinding check PASSED — release to reviewers ☐ Returned for correction
